

## Why Cabot House Furniture & Design?

We are more than in-house furniture experts. We have a talented and experienced Design Team who love what they do and take pride in their ability to create harmonious living spaces with symmetry and balance. Our designers have years of expertise honing their craft and take joy in creating spaces that reflect their client's taste and lifestyle. Our designers have the ability to problem solve, handle changes or hiccups, and create a seamless design experience. From ordering to installation, our designers will keep you updated on deliveries and handle all the details. Once your furniture arrives at our climate-controlled distribution center, we unload and inspect each piece. The process includes additional inspection, pad wrapping, and strapping your items for safe delivery. We assemble each piece and place your furniture exactly where you want it.

## Services

---

### Professional Design Services

Your home is an expression of who you are. While it can feel overwhelming to find the perfect furniture, we will help you make choices you feel confident about. We can help you at any stage of the design process. Whether you are looking for design advice choosing a sofa, a simple style refresh, or a completely new look, we will design your home to your taste and lifestyle. Our talented team has proven experience designing primary and secondary homes throughout New England and Florida. From custom upholstery and case goods to window treatments, carpeting and lighting, all the way to custom pillows and bedding, our designers will transform your space into a home you will love.

### Vision Boards

Vision boards are a great way to conceptualize potential furniture pieces, colors, and textures before making a purchasing decision. We will create a complimentary vision board detailing your furniture and fabric selections.

### Virtual Design

If the vision board isn't enough and you still have some doubts about the overall specs of your space, a realistic, to-scale rendering of your room may be just what you need. Our designers will create a floor plan laid out to scale with furniture and fabric recommendations. This includes the use of design software with three dimensional renderings for more in-depth, detailed visualizations of your space.

### Long-Lasting Relationships

Cabot House designers have access to quality product lines in a range of styles and budgets. We have built strong relationships with manufacturers and continually scout out new lines to add to our portfolio. We offer competitive pricing on everything we sell, along with designer brands you will not find online.

*"...My experience with Cabot House is consistently A+! The staff is extremely knowledgeable and takes the time to get to know customers and their design style...I couldn't be happier and will not buy furniture anywhere else!"*
